**Description:** PBL 101 is BIE's foundational three-day (consecutive, 7.0 hours per day, including lunch) onsite workshop. Based on BIE's model of [Gold Standard PBL](#), the workshop provides participants with the skills and knowledge needed to design, assess and manage a rigorous, relevant, and standards-based project. The workshop models the project process. Facilitated by one of BIE's expert National Faculty, the workshop is a balanced blend of direct instruction, video analysis, hands-on work, resource sharing, and peer collaboration and feedback. Participants are actively engaged in project design, with the expectation that every teacher or teaching team will generate a project plan that receives formative feedback from both participants and BIE National Faculty. All participants (limited to 35 per workshop) receive a free copy of BIE's highly regarded [PBL 101 Workbook](#), which is exclusively for PBL 101 participants and not sold separately.
